InDesign Preflight

Saving time on your printing production, saves you money. Use NextPage's InDesign Preflight Profile Preset to ensure correct file preparation for submission to the printer. Let's begin your time-saving adventure by following these simple instructions for installing our presets.

Start

Step 1

Download the *"NPI_Preflight.idpp"* profile from goNextPage.com

Step 2

Verify that the Preflight Panel is visible. To show the panel go to: *Window > Output > Preflight.*

Step 3

Select *"Define Profiles"* from the menu in the upper-right corner of the panel.

Step 4

Select Load Profile from the menu at the bottom of that dialog box & navigate to the *"NPI_Preflight.idpp"* file. Once loaded, select *"OK."*

Step 5

Select *"Preflight Options"* from the drop-down menu.

Step 6

Select *"NPI_Preflight"* as the Working Profile & select *"OK."*

WHO DOESN'T LOVE SAVING TIME?
